

## DISTRICT 210 ADVISORY COM. NAMES CITIZENS

The high school board of Community High School district 210 last Wednesday evening named the citizen's advisory committee to work with the University of Illinois in making the survey for the district. It will be the duty of this committee to work with the University group and in advising them on local problems and local background and in doing such local research as is necessary.

The committee appointed consists of:

Mrs. Iona Ruthenbeck and Lester Brown, New Lenox; Mrs. Winsor Jones and Milford Smith, Manhattan; Mrs. Grace Walker and Vernon Hansen, Lincoln Estates; Mrs. Elizabeth Cappel and Clarence Lauffer, Mokena; Mrs. Marie Johnson and Eugene Hinspeter, Frankfort.

The Board decided to join the Illinois Association of School Boards in order to keep in current touch with all present school matters. As the board has no money at all at the present time, it was decided to borrow \$500 to meet miscellaneous current expenses accruing to the district.

President Krusemark reported that a group of Orland people from the southern part of Orland township were interested in joining District No. 210. However, this would involve only a part of the Orland district, and on checking the new school legislation on this matter of annexing territory, it was found that a high school district cannot change its boundaries for a period of two years after its organization except by means of consolidation with an entire district. The Board expressed its approval of such proposed annexation at a later time.

It was also reported that the University began making its survey October 11, by making a study of all the students now in high school and determining their type of curriculum, background, etc.

## Club Gives Gift To Orland School

For the second year in succession the Junior Woman's club of Orland Park has voted to donate \$25 to the Orland Park public school to pay the rental on a motion picture film.

As yet, the picture has not been selected, but it will be of timely interest to students. The entire school wishes to thank the Junior Woman's club for this gift.

A novena is a nine day devotion of prayer in honor of the saint and will end therefore on the feast day of St. Jude, Oct. 29. St. Jude, according to Fr. Dennis Hall, O. F. It shows the simplicity of arranging a holiday and many scenes, interiors and exteriors, of the famous red and silver train along the Rock Island right-of-way. Shots of the interior show in detail the luxurious sleeping accommodations, the diner, observation car, fiesta car and other features of the popular train.

## FINE WEATHER TRICKS NATURE

Summer bowed out in a most gracious manner in this part of Illinois and autumn is close on the heels of summer in giving good weather. The temperature for the past week has hovered around 80 and at times a little above.

It seems though that this splendid weather has the vegetation guessing and some plants don't know if they should start growing or not. Some have decided to.

Mrs. Lester Sayers of Orland Park brought to our Mokena office Monday a lovely bouquet of Forsythia or Golden Bell in which part of the leaves had turned to autumn colors and on the same branch and stem were new green leaves with flowers, making an unusual and lovely bouquet. This is the plant which forces easily in the early spring by cutting branches and bringing them into the warmth of a room.

## Readers Viewpoint

Marley, Illinois  
October 12, 1951

Mrs. Margaret Semmler  
Mokena News-Bulletin  
Mokena, Illinois

Dear Mrs. Semmler:

I noticed the article in the News-Bulletin for October 11th, regarding the split in the Lutheran church, Missouri synod. This is an important matter of all denominations, and I am glad that it was mentioned in your paper. I believe, however, that the News-Bulletin should have taken a more neutral position in the matter and limited itself to an objective report of the incident instead of passing judgment as to which of the two groups was guilty of "unscriptural doctrines publicly advocated."

I believe that you will agree that this is a fair criticism. I want to tell you how much our family enjoys the Bulletin and its excellent coverage of the local news.

Sincerely yours,  
Rev. William A. Bingham  
Pastor, Marley Baptist Comm. Church

Editor's Note: The article referred to was released to us by the Rev. H. D. Mensing, pastor of the Trinity Lutheran church at Tinley Park, with his request that we publish it as he released it. In the article we unintentionally did not mention it was published as released by him. Your criticism is correct and welcome. We hope you will always find enjoyment in reading The News-Bulletin.

## VFW MASQUERADE BALL OCT. 27 BENEFIT VETS CHRISTMAS GIFTS

### Spectacular Fun and Grl Show and Girls Hit

Beautiful girls in diaphanous vestments coupled with laughs are still potent box-office lures as attested by the crowds that fill the Palace theatre, Chicago, to see Carol Channing in "Gentlemen Prefer Blondes." Here is no "message" or "significance" or "mission." The big extravaganza with its popular and personable personnel of 100 was designed solely for entertainment.

Miss Channing, who skyrocketed to stardom overnight at the Ziegfeld, New York, and, she didn't come down like a stick—in the part of the acquisitive Lorelei Lee, has more than duplicated the impact on Chicago's fun lovers.

The saga of the Ozark lass on the make follows rather closely the original novel and comedy without music Anita Loos authored twenty-five years ago. Lyrically in "He Done Me Wrong in Little Rock" she recounts her repulse of the big bad wolf. In fact the villain got himself a 38 in his anatomy for his presumption.

Later in the performance, after a season in Paris and an apartment on Park avenue, the progressive vestal reveals her philosophy in the tuncful proposition that "Diamonds Are A Girl's Best Friend."

It is many years since Chicago has seen such a colorful spectacle. There are twenty scenes and a number of musical hits. Performances are given nightly including Sunday and excepting Monday evening. Matinees are announced for Wednesdays and Saturdays except that the midweek afternoon show will be given Thanksgiving day rather than Wednesday. There will be a New Year's eve performance, while the night show New Year's day will be eliminated. Mail orders receive prompt attention.

Christmas may not quite be around the corner, but sending gift packages to our boys in service over seas is right at our door, and that is why the William Martin Post 725 VFW has scheduled a masquerade ball for Saturday evening, October 27.

This ball is being given for a benefit fund with which to purchase and send gifts to all local boys in service. The VFW does not want to miss any service man from this locality and that is the reason they are calling for family members to send in the names and addresses of their sons, brothers or fathers who are serving in Korea, Europe or any other station and also those who are home on furlough, or have returned from service. Such names and addresses should be given to Commander Adam Schneider, New Lenox or Arrian C. Yunker, Mokena.

And in the meantime, they hope you will plan to attend the masquerade October 27 in the VFW hall in Mokena where you are assured a good time, as well as helping toward a most worthy cause.

### THE TOOLS OF TRIUMPH

You don't get far by wishin'  
Or cryin' 'bout your need;  
A million tears won't equal  
The power in a deed ...

You don't win out by dreamin'  
In hammocks in the shade—  
A bit o' plannin's helpful  
But muscle makes the grade.

You've got to use your patience,  
Some pushin' and a prayer;  
They make the mountain lower,  
You'll find you're gettin' there.

But sleepin' in the clover  
Or restin' by a tree  
The goal looks higher, farther

### Students Advised to Apply for Dec. Test

Colonel Armstrong advised students whose academic year will end in January, 1952 to apply for the December 13 test so they will have a score in their file when the local board reconsiders their case in January to determine whether they meet the criteria for further deferment as students. He also advised students completing a full college year to have their local

board furnished by the college with a report of their scholastic standing, so that the board may have both the test score and the class standing on which to base its action.

Most of those taking the test will be freshmen who were not in college when the first series of tests were given earlier this year and hence were not eligible to take them. Colonel Armstrong said it was impossible to estimate how many will apply. He pointed out that it is not mandatory on the local boards to defer students on the basis of test scores, the scores being merely for the guidance of the boards. He also called attention to the fact that a student or any one else who is deferred remains liable for military service until he reaches the age of 35.

Qualified students are deferred, he said, in the belief they will prove more valuable to the country after completing their education than they would be without it.

## TAX FACTS

By George E. Mahin, Executive Secretary  
Taxpayers' Federation of Illinois

Robert P. Vanderpoel, financial columnist of the Chicago Sun-Times, devoted a recent article to an explanation of how increasing federal taxes is supposed to hold down the rising cost of living. The road ahead is a bleak road though, unless the American people can find a better solution.

Vanderpoel's explanation boils down to this. The Federal government has a certain amount of money, authorized by appropriations voted by congress and approved by the President, that it is going to spend in 1952—say \$1000. Consumers also will have a certain amount of money to spend in 1952 from wages, etc.—say \$2000. That adds up to a total buying power of \$3000. But there will only be \$2700 worth of goods in 1952 that can be bought. So, say Vanderpoel and the others who defend this program, take \$300 from the consumers in higher taxes to help the government pay for what it's going to spend. As Vanderpoel says: "If the money is taken away from the people through taxation, they can't spend it but if the government doesn't get the money by taxes, it can spend it anyhow. If Congress votes appropriations and fails to vote taxes to meet them, the Federal Treasury simply borrows the money. This creates inflation and promotes advancing prices."

Assuming that higher federal taxes will check inflation in 1952 (although I strongly suspect that there are other actors which enter into the problem of inflation so that we will in fact end up with less income after taxes AND higher prices), What About 1953? The Federal government is actually going to spend more dollars in 1953 than it is in 1952—say \$1250. If there is only \$2700 worth of goods available in 1953, that will leave only \$1450 in goods that consumers can buy, instead of \$1700. Are we then to increase federal taxes again in 1953 to transfer more money out of the consumers' pockets into Uncle Sam's? And what about 1954? 1955? What a dismal future lies ahead for the American people down this higher tax road.

Vanderpoel points out in his column an alternative solution which we would all prefer. If Congress would cut the spending power of the Federal government the effect on inflation would be exactly the same as increasing the tax take from consumers. However the fact is that Congress hasn't been able to do this, or willing to do it. Despite the efforts of Senators Douglas and Dirksen from Illinois (and we in Illinois haven't much control over the Senators from the other 47 states), the Senate has in fact lagged behind the House in cutting the fat out of appropriation bills, and the House hasn't cut very deeply either. The record shows that Congress won't do a real job of cutting out the fat unless forced to. The question then seems to be this: Isn't there any simple proposal offering a solution that the American people will support which will force a balanced budget and solve the problem?

The most significant statement in Vanderpoel's column was: "If by law or otherwise the government could not spend unless it previously secured the funds through taxation, quite obviously it would be possible to force reduced expenditures by refusing to vote the taxes." Vanderpoel passes this by with the statement: "Such, however, is not the case and certainly Mahin knows this." True, but isn't there in this idea the only intelligent, realistic solution to the problem of inflation, to the problem of big government constantly getting bigger, to the problem of forcing not only Congress but also the President and his whole executive branch to do a real job of balancing the budget? It works in Illinois, where we have, thank God, the constitutional requirement that the budget must be balanced if appropriations

are to be valid. Why wouldn't an amendment to the Constitution of the United States, based on this principle, be a proposition we could all get behind?

I'm willing to pay higher taxes

Provided I can see some hope that those taxes will put the Federal government on a pay as you go basis with a sound program for debt retirement. I'm not willing to pay more taxes though for guns and butter purchased by

the government to keep prices high, for planes and potatoes to rot in the fields, for more GIs and more payrollers, for more pork barrel projects and more bureaus. At least give us hope, not hopelessness.

# 14th Flower Show School of Garden Club of Illinois

"Members of garden clubs from all over the state are enrolling for the fourteenth flower show school of the Garden Club of Illinois," says Mrs. Harold J. Bluhm, of La Grange, chairman of the school, which this year will be held in Fullerton hall, Art Institute, Chicago, Wednesday and Thursday, October 24 and 25, and in the grand ball-

room of The Palmer House, Friday, October 26. Course III as outlined in the National Council of State Garden Clubs' "Handbook for Flower Shows" will be followed.

The flower show school is the largest of its kind in the middle west and, besides a large attendance from the garden clubs of Illinois, brings students from the states in this area. Registrations have been received from Iowa, Indiana, Michigan and Wisconsin.

The School will be opened

Wednesday morning at 9:30 a. m., by Mrs. J. Wilson McAllister of Evanston, president of The Garden Club of Illinois. She will be followed by Mrs. W. A. Park of Park Ridge, who will present "Flower Show Practice - Staging and Duties of Judges." Mrs. Park is the first vice president and program chairman of The Garden Club of Illinois, the immediate past chairman of flower show schools in Illinois, is a national judge and is the newly appointed chairman of National Reading Examinations for the National Council of State Garden Clubs Inc.

At 10:45 a. m. the same morning, Dr. Burdean E. Struckmeyer, associate professor of Horticulture at the University of Wisconsin, who will give the Horticulture part of the course, will lecture on Cacti, Succulents, Delphinium, Orchids etc. and at 1:15 p. m. Dr. Struckmeyer's subject will be Fruits, Vegetables, House and Greenhouse Plants.

Dr. Struckmeyer has done a great deal of work in all phases of plant physiology, the practical application of which might be appreciated. In preparing azaleas and hydrangeas for forcing, the setting of buds is controlled by light and temperature and she has worked out methods of spacing buds which can be done so perfectly that buds can be spaced evenly all over the plant and when the plant blooms it is a solid mass of flowers. She is a physiologist who works with plant cells, understands what makes plants grow and how to control plant growth. Her work at the university is primarily research, dividing her work between Floriculture and Pomology. Dr. Struckmeyer has lectured widely among garden clubs and is a national judge.

Thursday, October 25 at 9:30 a. m. covering the course on Flower Arrangement, Mrs. Anna Hong Rutt of State university, Baton Rouge, Louisiana, internationally known as flower arranger, author and artist will present "Design, with emphasis on Scale and Proportion." Her afternoon lecture, at 1:15 will be on "Color, with emphasis on Analogous Harmonies" with a demonstration in judging flower arrangements.

Mrs. Rutt is one of this country's most important art teachers and has been lecturing and writing on flower arrangement for many years. Before her marriage she was head of the art department at Northwestern university, Evanston. Mrs. Rutt is the author of Home Furnishings, a popular college text book in its field. She gave permission to the national council of State Garden Clubs, when they were preparing the Handbook for Flower Shows used in Flower Show schools all over the country, to draw upon material in her book for types of arrangements and table settings. She was presented with the prized award of Literary Achievement by the national council at its annual convention in 1951.

Mrs. Rutt has lectured on American flower arrangement in England, Norway, Finland, Sweden, France, Canada, Mexico, Cuba and Hawaii and in most of these United States. She is also a painter of landscapes and flowers and is listed in Who's Who in Art. She has exhibited in the mid western and western art galleries, including the Chicago Art Institute and the Los Angeles Museum of Art.

Mrs. Rutt is convinced that the best possible way to improve the flower shows of a community is to hold Flower Show schools and maintains that any woman who will take the time to learn the design principles can learn to make pleasing flower arrangements. She believes that a woman who learns practical esthetics while studying flower arrangement will apply this knowledge to all her surroundings; her additional knowledge of color and design will enrich her while life, and that of her family.

The purpose of the Flower Show schools which are given by The Garden Club of Illinois and other garden club organizations in the country is to raise the standard of the community shows, the local flower shows which do so much to stimulate interest in horticulture in the various localities. The Flower Show school aids these local flower shows in two ways—it provides accredited judges so the shows will be fairly judged and teaches the exhibitors of the show how to grow and exhibit their plant material in the best possible manner.

This school is open to all who are interested, whether members of garden clubs or not. There is a fee for the full course of lectures or for a single lecture. Tickets are available at The Garden Club of Illinois headquarters in The Palmer House.

The examinations, which are optional, will be held October 26 in the Grand Ballroom of The Palmer House from 9 a. m. to 3:30 p. m. One must pass examinations for three years on all subjects given in the course of lectures in order to be placed upon the accredited judges list.

You Have To See How It Cuts Installation Cost! BLEND-AIR not only gives you more comfort, and cuts heat-waste! Usually, it costs less to install than an old-style heating system.

What "Magic" Takes Place In The Wall Between These Two Grilles?

But Seeing Is Believing! See us, and let us show you why the new Coleman Automatic Furnace, with BLEND-AIR, is the talk of home-owners and home-builders alike. Come in—ask for a demonstration, now!

**JOHN DEERE No. 101 Corn Picker**

There's a brand-new experience in corn-saving performance awaiting you in a John Deere No. 101 One-Row, Wheel- and Drawbar-Mounted Corn Picker.

Long, wide, gently-sloping gatherers, and low-down, long-lugged gatherer chains positively guide the stalks into the snapping rolls, which are close to the ground to trap low-hanging ears. Big-capacity husking rolls handle the heaviest crop without waste.

Shelled corn goes into the wagon—not on the ground.

The No. 101 is lightweight and maneuverable... operates efficiently in fields too soft for heavier pickers. Abundant strength and easy servicing reduce costly, time-consuming breakdowns. See us for complete details about the economical, dependable John Deere No. 101 Corn Picker.
